About

This script filter and scores the self-report data from BUDS study: Bullying, Unsupportive family/peers, Discrimination, and Social feedback study using data from PREDICT project collaboration between Northwestern (PI: Shankman) and Columbia (PI: Auerbach).

Get Setup

Clear everything & set width

```r
rm(list=ls())        #Remove everything from environment
# .rs.restartR()     #Restart R session

knitr::opts_chunk$set(set.seed(312), echo=FALSE, results='hide', message=FALSE, warning=FALSE, error=FA
    options(width=80) #Set width
    cat("\014")        #Clear Console
```

Load Libraries

Get the Working Directory

Load EMA data

Remember to immediately rename and remove. Avoid overwriting old data.

Load ERP data

EMA

Intensives: Lilian's cleaning code

Descriptives

Prediction of mean levels
